Jeremy,

Mike Lauer (added to this thread) will be meeting with your VPR on Wednesday. Based upon the outcome of that meeting, Mike and I are willing to meet with your Chancellor if that is still desired.

Best wishes,
Larry

Subject: Fetal tissue research-University of Pittsburgh

Hi Francis:

I write regarding ongoing efforts to undermine important science using fetal tissue. As you no doubt know, various public universities have been the subject of rotating attacks about research using fetal tissue, sometimes citing NIH support for the research. It is now the University of Pittsburgh turn in the spotlight. The event that triggered this is the publication of a paper (attached) on grafting fetal skin onto rodents supported by an R21 from NIAID (<https://reporter.nih.gov/search/cbh4-6MG-UCNgeeBHC15ew/project-details/9599671>). I provide this only for background as the details do not matter for the issue I am raising.

Pitt's response to concerns raised by state legislators and various news outlets has been to commission an outside review of Pitt's practices and compliance. The University believes that all appropriate practices and laws have been followed. However, this outside review has been met with additional complaints (see <https://www.foxnews.com/us/pittsburgh-investigation-fetal-tissue-probe-cone-silence>).

We have been discussing these issues and it seems that this is an organized attempt to delegitimize science based on fetal tissue rather than to identify misbehavior (although, of course, any misbehavior does create opportunities for outrage). In light of this, we feel that the scientific community would benefit if

more institutions could stand together to take some of the power out of the one-at-a-time strategy that appears to be operating.

Our Chancellor Pat Gallagher, former Director of NIST and your Senate confirmation colleague would like the opportunity to discuss this with you or other appropriate individuals at NIH via whatever venue would be preferred (phone, Zoom, in Bethesda).

If this is possible, please let me know the best way to make the appropriate arrangements.

Thank you for your consideration and best wishes for the remainder of your time at NIH and for the next phase.

Best, Jeremy

Good evening – We have a Zoom meeting scheduled with the Pitt VPR and team this Wednesday, October 20, at 9:30 AM. That's why I'll be late for Exec Comm – I'll join at 10 AM. So the timing works.

Thanks, Mike
