**Subject:** (U//FOUO) RFI#: 3933 - Threats to Electricity Industry - 12-31-20 (TLP:GREEN) (INC10320953)

~~UNCLASSIFIED//FOR OFFICIAL USE ONLY~~  
~~TLP: GREEN~~

NRMCI & CISA-Intel,

CISA Central respectfully requests your assistance with answering the below request for information. If you have any questions, please contact CISA Central at (b)(6) or (b)(6) and refer to RFI 3933.

**Response requested NLT 1200 ET on 04 January 2021**

**Requested Information:**

- Credible intelligence regarding threats or risks to the electricity industry in connection with 5G (including 5G conspiracy-related theories)
- In preparation for the upcoming Electoral College count on January 6 in Washington DC, is there any credible intelligence regarding threats or risks to the electricity industry, including any DVE threats to the power grid or assets in/around the DC area

Please provide your responses to (b)(6)

Respectfully,

CISA Central  
 Cybersecurity and Infrastructure Security Agency (CISA)  
 Office: (b)(6) | Email: (b)(6)

Good afternoon CISA,

In light of both recent and upcoming events, the E-ISAC requests any unclassified information from DHS CISA that can be shared with utility members in the U.S. and Canada, on the following questions:

- As a follow-up to the recent incident in Nashville, do you have any credible intelligence regarding threats or risks to the electricity industry in connection with 5G (including 5G conspiracy-related theories)?
- In preparation for the upcoming Electoral College count on January 6 in Washington DC, do you have any credible intelligence regarding threats or risks to the electricity industry, including any DVE threats to the power grid or assets in/around the DC area?

Timeline: If any information is available and can be shared, a response by this Monday, January 4, 2021, would be greatly appreciated.

Thank you very much for your help and assistance in advance, and happy New Year!
