Subject: R	E: Duplicate reporting to Twitter	
Hi (b)(6)		
LII (D)(O)		
I'd say we	have two options –	
th 2. Yo sh re I'm not sur will always Anyway, I option 2, v	u all provide additional research to us to provide Twitter on a specific ca an you all. u all notify us when you're notifying Twitter so we can let our contacts ke are the additional info you're providing Twitter). You should also notify ported. This would hopefully help them manage the reports. The how we'd go from double reporting to no reporting in a scenario whe is report those to Twitter, but agree more reporting is better than less. Think we can work with either of these. Option 1 would be easier on Twitter would at least help Twitter manage when duplicate reports come in	know (would also be good if you could your Twitter POCs that CISA has also re a report comes through CIS as CISA witter, but understand if you all prefer
Regards,		
Brian

	E: Duplicate reporting to Twitter	
Hello Briar),	
	he delayed response here – took a day to settle this out on the EIP side. s to not duplicate notifications to Twitter when its (a) marked as Twitter	선물 시간 경기 시간 이번 경기 전략 전에 가게 되었다면 그는 이번 이 가락을 하나 보고 아버지네요

Sorry for the delayed response here – took a day to settle this out on the EIP side. We are doing our best effort on the CIS reports to not duplicate notifications to Twitter when its (a) marked as Twitter being notified (assumption is everything sent with CIS #XXXXX has made it to Twitter) and (b) we have no substantial research to add to the matter. There have been a couple cases in the last week where we did not escalate CIS reports due to this, and we will continue to push on this front. Given how close we are to the election, I think this is the best option so that every report goes through CISA to the platforms, and EIP also sends over the relevant information only when we have further analysis to add which might be of help (more links, evidence of origination or coordination, etc.). We don't want to overwhelm them, but on the day of, I think we'd kick ourselves more for not alerting than for double reporting.

Does this sound okay? We have communicated this to our Twitter partners through our channel with them.

Subject: Duplicate reporting to Twitter	
Hey,	
Twitter asked if we could have reports coming thro	ough misinfo reports only be reported to them via CISA. I know the
그 하다면 어느 그렇게 하는 물건들이 그렇게 하는 것이 되는 것이 되는 것이 없어 되었다면 되었다면 하는 것이다.	Il and they are trying to cut back on duplicates. Any issues with this
: (C. C. C	k like – election official > msinformationreports > CISA/EIP/Others >
CISA sends to Twitter > rest of process is the same.	
Thanks,	
Brian
